

Effective from 1st May 2025

DMCA Policy for DataCamp Limited

This DMCA Policy outlines the procedures that DataCamp Limited ("Supplier") follows in compliance with the Digital Millennium Copyright Act (DMCA). This DMCA policy applies to all users of Supplier's Services and the associated Websites, including but not limited to www.cdn77.com. This DMCA policy is intended to provide guidance to any individual, organization, or entity ("Complainant") that believes their copyrighted material has been infringed upon through the use of the Supplier's Services and wishes to file a complaint under the DMCA.

Terms not defined herein shall have the same definition as provided in the [Terms and Conditions](#).

1. DISCLAIMER – PLEASE READ THIS BEFORE SENDING AN ABUSE REPORT

Please note that in a vast majority of the cases, the Supplier is providing “system caching” services through its Content Delivery Network (CDN), which means that, under the DMCA, the Supplier is obliged to remove or disable access to the allegedly infringing content stored on the CDN only if:

- (i) the material has previously been removed from the originating site or access to it has been disabled, or a court has ordered that the material be removed from the originating site or that access to the material on the originating site be disabled; and
- (ii) the party giving the notification includes in the notification a statement confirming that the material has been removed from the originating site or access to it has been disabled or that a court has ordered that the material be removed from the originating site or that access to the material on the originating site be disabled.

Unless you can provide all the information mentioned above, it is recommended that you contact the administrator of the originating site, as otherwise the Supplier cannot remove or disable access to the content that it does not host.

In the rare cases where the Supplier acts as a “hosting” provider, under the meaning of 17 U.S.C. § 512(c), the Supplier shall act accordingly to remove or to disable access to the illegal content upon obtaining knowledge or awareness of such.

2. Notice of Claimed Infringement

If you believe that any content being hosted by the Supplier infringes upon your copyright, you may submit a written notice ("DMCA Notice"). The DMCA Notice must include the following:

- (i) A physical or electronic signature of the copyright owner or a person authorized to act on their behalf.
- (ii) Identification of the copyrighted work claimed to have been infringed, or, if multiple copyrighted works are covered by a single notification, a representative list of such works.
- (iii) Identification of the material that is claimed to be infringing or to be the subject of infringing activity and that is to be removed or access to which is to be disabled, along with information reasonably sufficient to permit the Supplier to locate the material.
- (iv) Information reasonably sufficient to permit the Supplier to contact the complaining party, such as an address, telephone number, and, if available, a valid email address.
- (v) A statement that the complaining party has a good faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law.
- (vi) A statement that the information in the notification is accurate, and under penalty of perjury, that the

complaining party is authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

The DMCA Notice should be sent solely to the abuse@cdn77.com email address, which will ensure the fastest resolve of your issue. Sending notices to multiple email addresses may cause a delay in full resolution.

Alternatively, you may contact the following DMCA Designated Agent:

Name: DataCamp Limited

Address: 9 Coldbath Square, London, United Kingdom, EC1R 5HL

Email: dmca@datacamp.co.uk

Upon receipt of a valid DMCA Notice, the Supplier will take appropriate actions as specified under DMCA.

3. Counter-Notification

If you believe that as a response to a DMCA notice your material has been removed or disabled by mistake or misidentification, you may file a counter notification ("Counter Notice") with the Supplier's Designated Agent. The Counter Notice must include:

- (i) Your physical or electronic signature.
- (ii) Identification of the material that has been removed or to which access has been disabled and the location where the material appeared before it was removed or disabled.
- (iii) A statement under penalty of perjury that you have a good faith belief that the material was removed or disabled as a result of mistake or misidentification.
- (iv) Your name, address, and telephone number, and a statement that you consent to the jurisdiction of the Federal District Court for the judicial district in which your address is located, or if your address is outside the United States, the jurisdiction of England, and that you will accept service of process from the person who provided the DMCA Notice or an agent of such person.

Upon receipt of a valid Counter Notice, the Supplier will provide the original complainant with a copy of the Counter Notice. If the original complainant does not file a court action against you within 10 business days of receiving the notice, the Supplier may restore the removed or disabled material.

4. Repeat Infringer Policy

The Supplier reserves the right to terminate the accounts of Customers who are repeat infringers. Under appropriate circumstances, the Supplier shall, in its sole discretion, terminate accounts that are subject to multiple DMCA Notices.

5. Misrepresentations

Any person who knowingly materially misrepresents that content is infringing or was removed by mistake or misidentification may be liable for damages, including costs and attorneys' fees.

6. Modifications

The Supplier reserves the right to modify this DMCA Policy at any time. Changes to this policy will be posted on the Website and will take effect immediately upon posting.

7. Contact Information
